Authorization for this examiner's amendment was given in a telephone interview with Mr. Buchenhorner, applicant's attorney on 4/27/05.

The application has been amended as follows:

In the claims:

In claim 8 (currently amended)

at line 3, delete [being] and insert --system --

In claim 10 (currently amended)

at line 2, before "sequence" delete [the] and insert -- a --

at line 2, at the end of the line delete [the] and insert -- a--.

REASON FOR ALLOWANCE

7. The following is an examiner's statement of reason for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations a method for modeling a process including an ordered sequence of actions, each associated with one or more triggering events and exit events, the method comprising: synchronization of two or more asynchronous events within the process is represented by join nodes with two or more asynchronous entry conditions; and repetitive functions are represented within the process as repetition nodes characterized by entry and exit criteria and an executable function that includes a repeatable function and repetition factor for controlling a number of repetitions for the repeatable function, as recited in the independent claims 4, 8 and 10.

Conclusion

8. The prior art made or record and not relied upon is considered pertinent to applicant's disclosure.
